About Us

It all began with one word...equality. And the rest is history. At eQuality Support, we're passionate and committed to making sure that every individual has an equal opportunity to live the life they choose. We do this by providing quality individualised care and support services that achieve exceptional outcomes.

With person centred active support at our forefront, it's your own unique story that matters, and we work with you to achieve your goals, your way. At eQuality Support, circumstances don't determine where you can go; they only determine where you start. Every moment has potential.

Services

Disability Support

eQuality Support has a disability support service for every ability. Together we can help you connect with your local community, help around the home, and assist with achieving your personal goals. We'll work with your individual needs to keep you in control of what you want and need.

Supported Independent Living (SIL)

We provide support with daily life tasks in a group or shared living environment. From low to complex high-care needs, our supports ensure you are provided with a secure and comfortable home. Individually tailored, our SIL services can also help you learn new skills, get involved in activities and stay healthy.

Daily Living Skills

Our dedicated team at eQuality Support can help you learn the necessary skills to live independently or lend a hand as needed. Learn everyday life skills such as cooking, using money, shopping, and getting active in your community. No matter what your want to learn, or what support you would like, we're there for you.

Person Centred Active Support

A person centred approach means that you're always at the centre of decision making. At eQuality Support, we make sure that we have a person centred approach across all of our services. We'll listen, think together and share ideas and feedback to ensure your needs and personal goals are always supported.
